

AI visibility with PiNCAMP

Your front-row seat to the new world of digital travel planning

With your personalised PiNCAMP AI profile, you can showcase your campsite exactly where guests are looking today: in AI systems, digital assistants and modern search environments.

We create an AI-optimised information page for your site featuring validated data, engaging storytelling and relevant keywords. This ensures your campsite is not only easier to find, but also presented in a more compelling way.

The content is based on reliable PiNCAMP data as well as information from leading industry partners such as ADAC, ANWB and TCS. This creates a professional online presence with high credibility and clear guidance for potential guests.

Your benefits:

- **AI optimised visibility:** Your campsite will be easier to find for modern search engines and AI crawlers
- **Highly trustworthy database:** Validated information builds confidence and strengthens your brand
- **Emotional storytelling :** Reviews, highlights and special features are presented in an engaging way
- **Everything from a single source:** Creation, hosting and publication are handled automatically by PiNCAMP
- **Additional use:** The content can also be integrated as a widget on your own website
